

# Who are you?

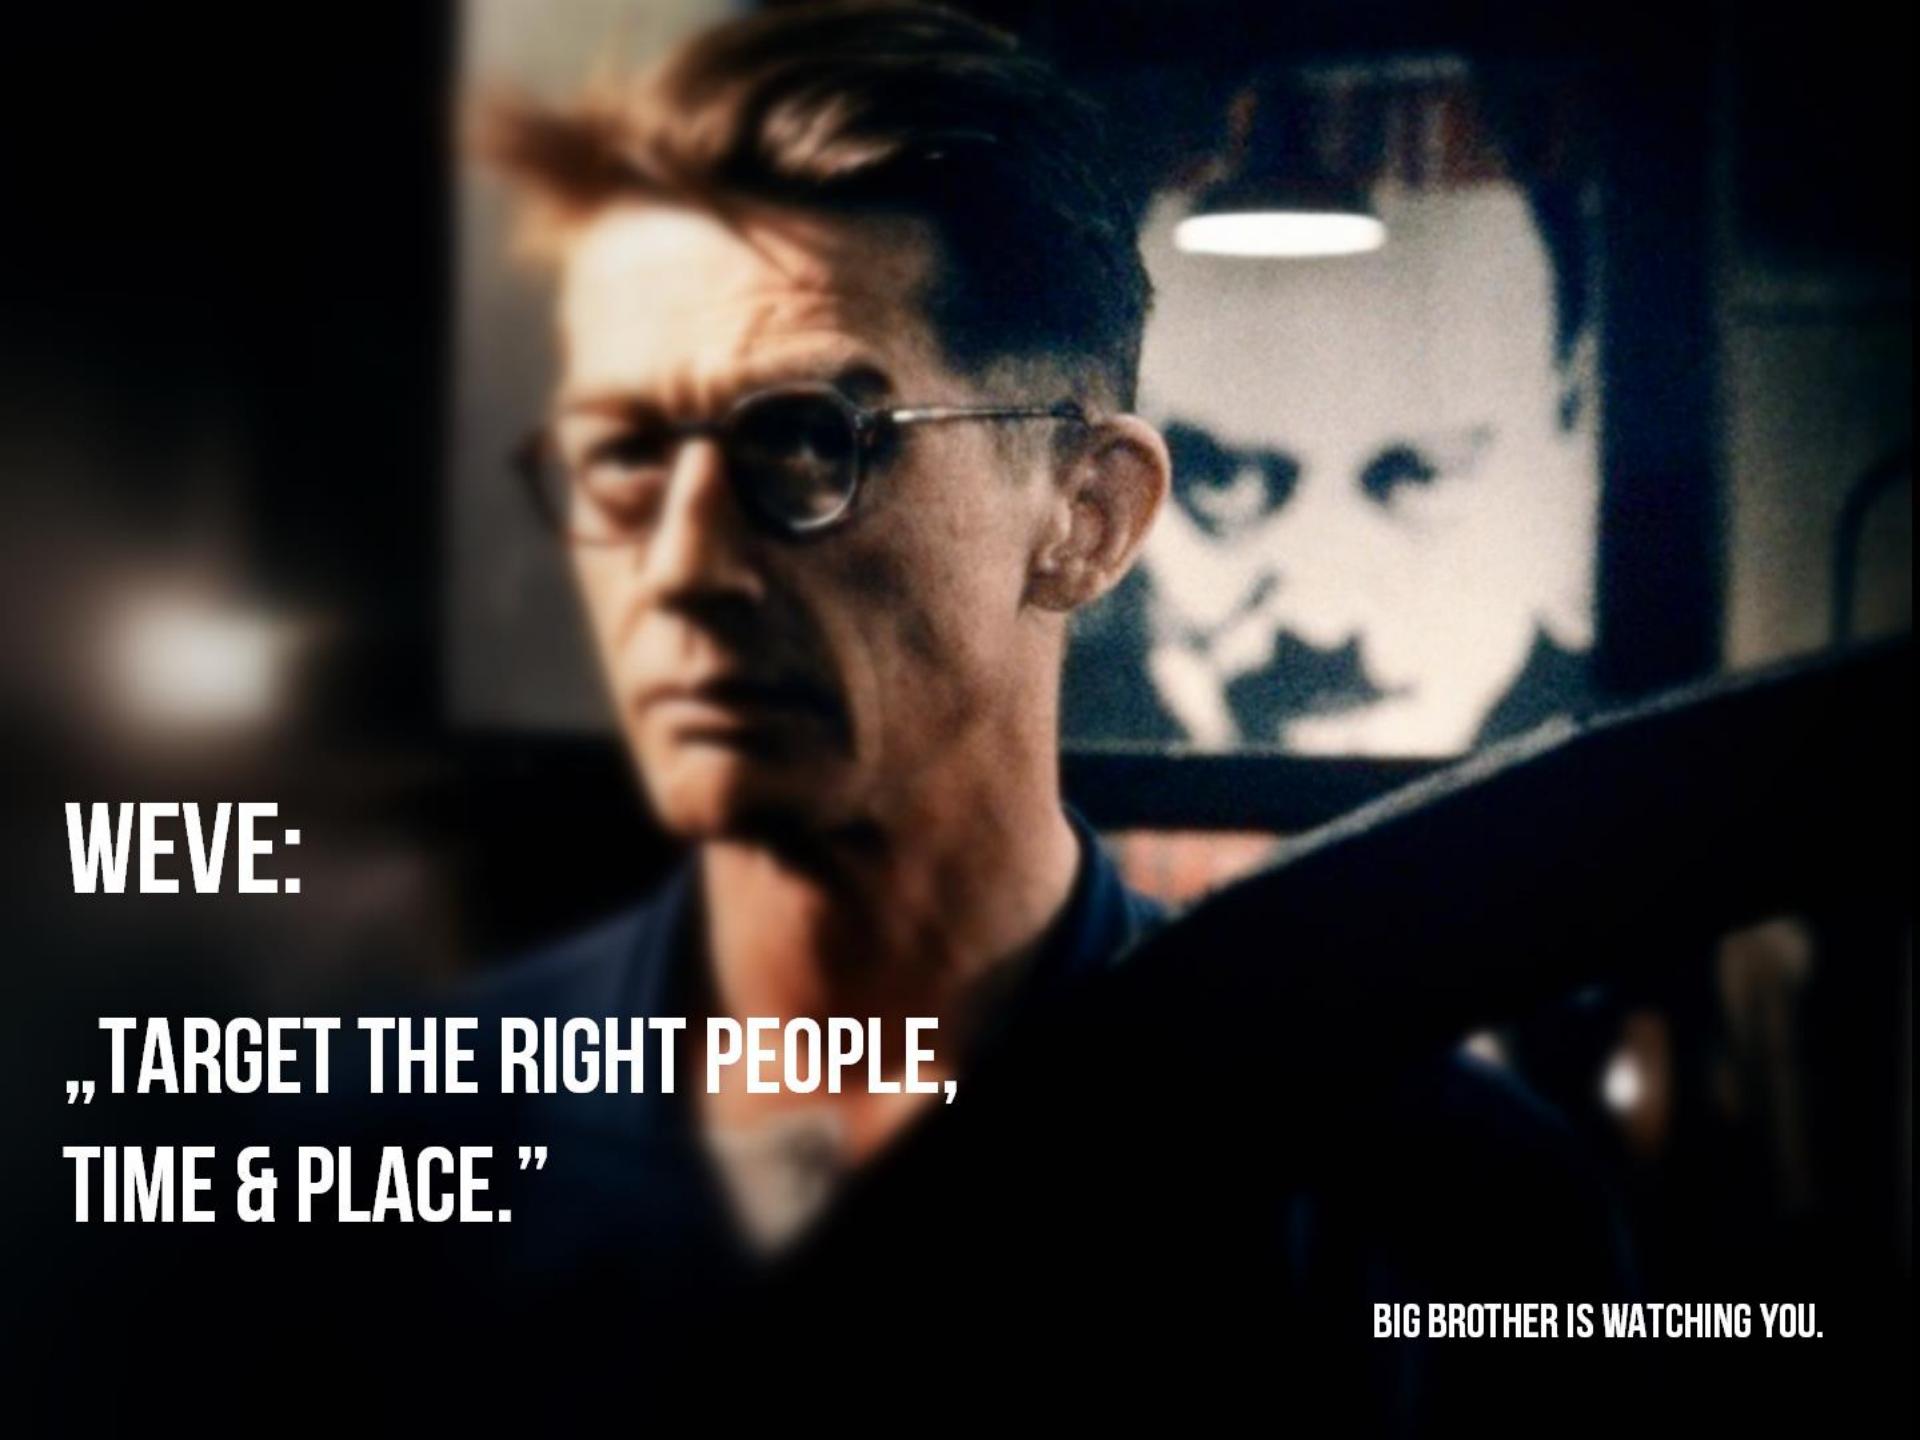

**Give me your  
data  
in order to  
receive  
something  
special!**

# Google Wallet

„Privacy concerns include the **storing** of data regarding payment information, transaction details, payment attempts and other information stored by Google indefinitely. The Privacy Policy for Google Wallet indicates that **much of** the data is stored...

The storage of such personal information about users' transactions is of significant financial value to a company that earns much of its revenue from data, but may be controversial to users aware of the policies.” - *Wikipedia*

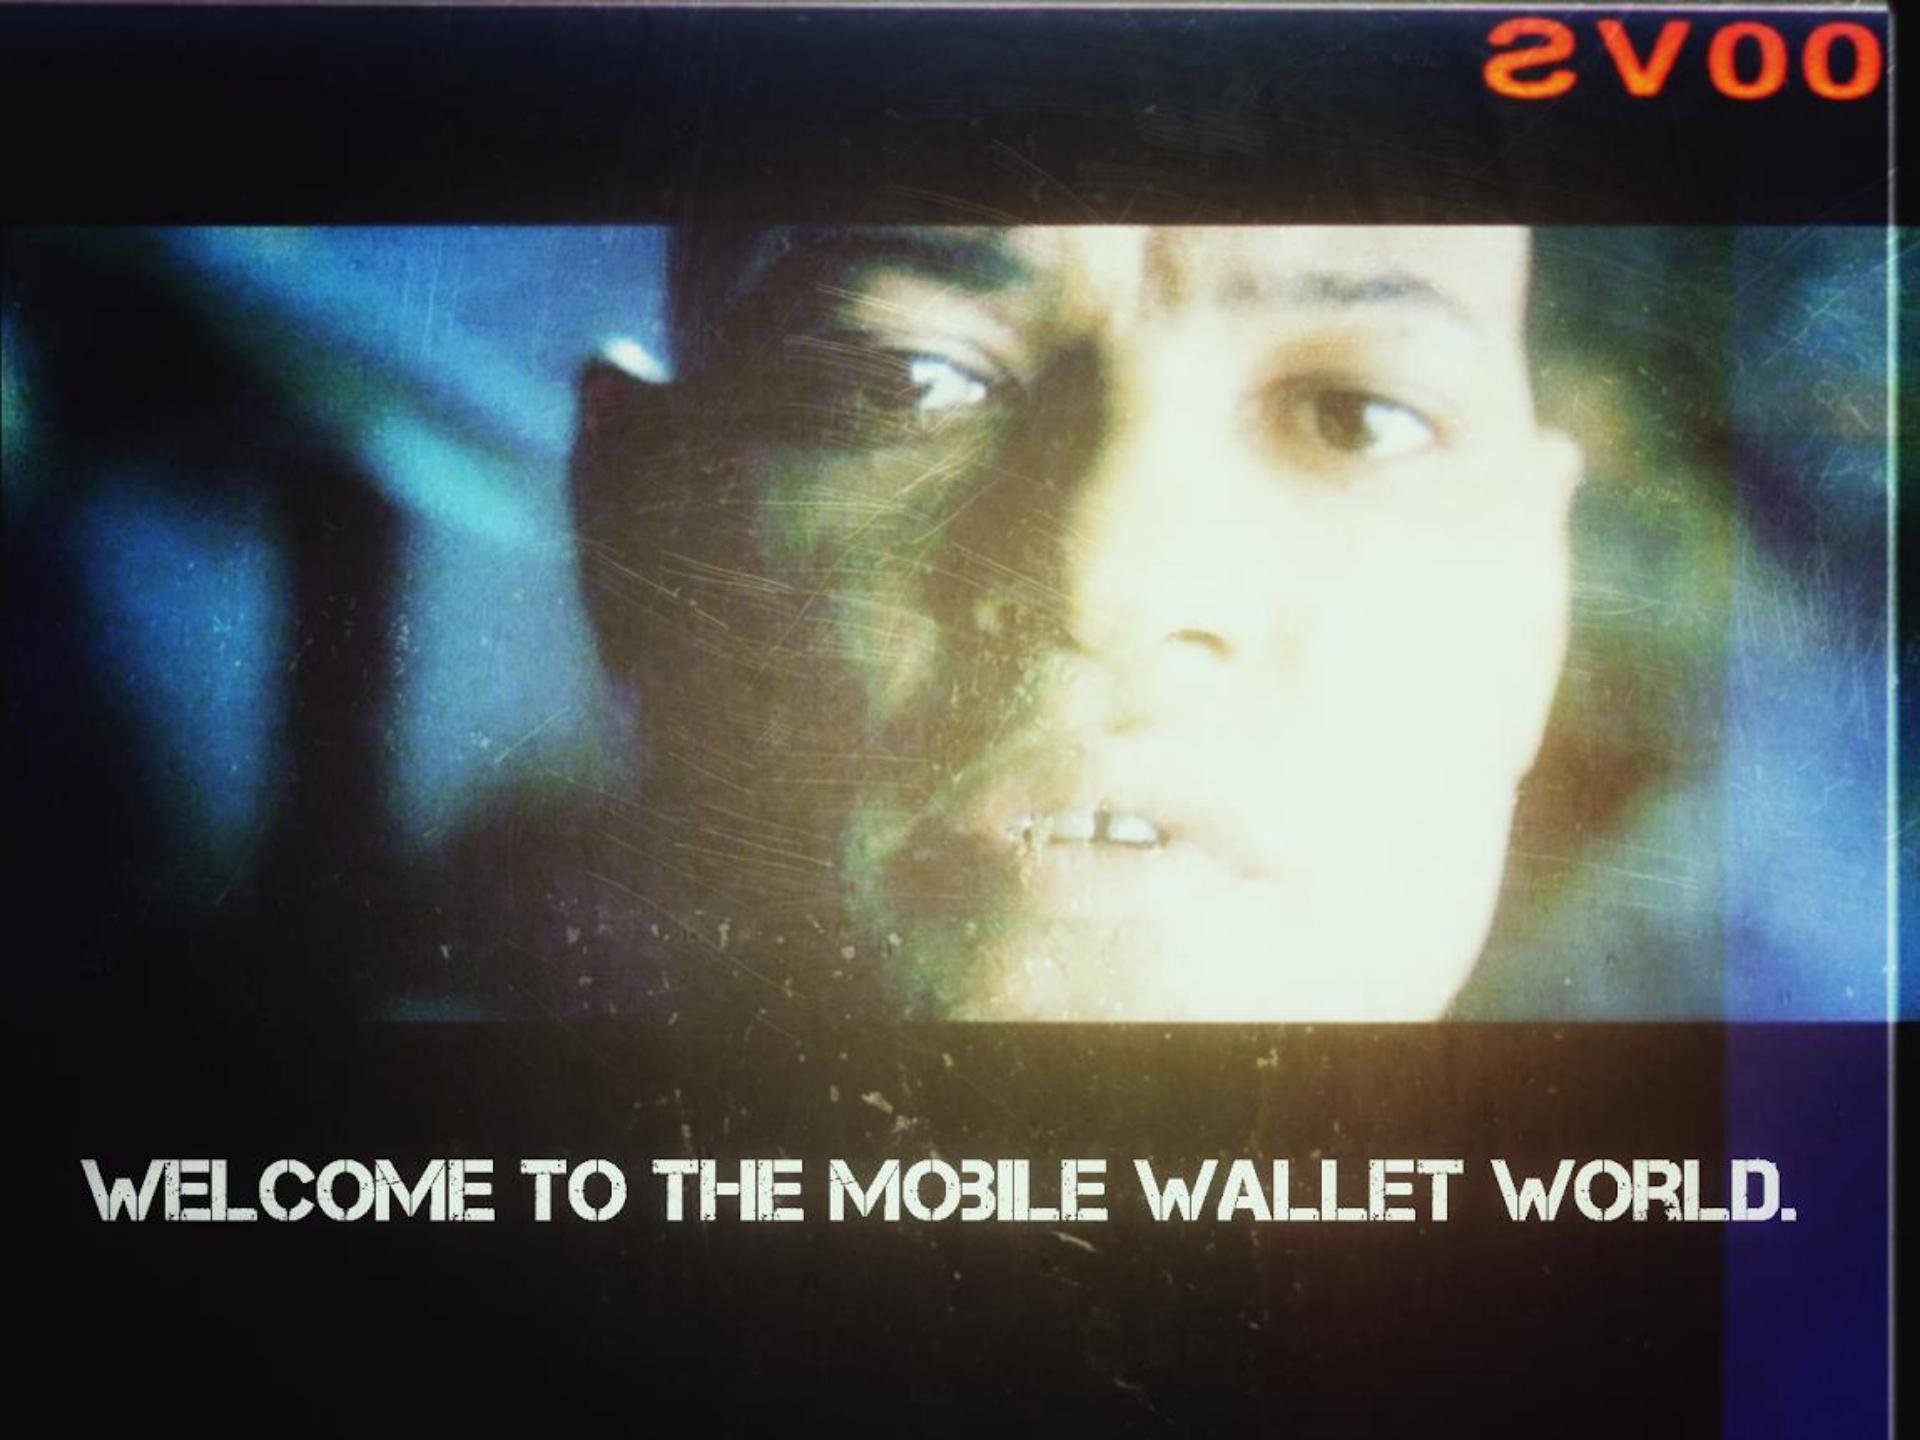

A close-up profile of a man wearing dark sunglasses and a dark shirt, looking towards the right. In the background, a large, grainy, black-and-white portrait of a man's face is visible, looking directly forward. The overall mood is mysterious and surveillance-oriented.

**WEVE:**

**„TARGET THE RIGHT PEOPLE,  
TIME & PLACE.”**

**BIG BROTHER IS WATCHING YOU.**

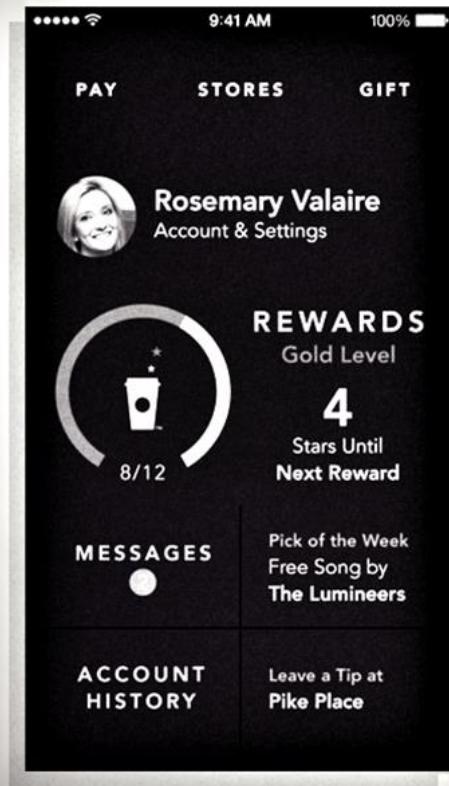

**zvoo**

A close-up photograph of a woman's face, which is partially obscured by a bright, multi-colored glow. The glow is composed of various colors like blue, green, yellow, and red, creating a futuristic or digital appearance. The woman has dark hair and is looking directly at the camera.

**WELCOME TO THE MOBILE WALLET WORLD.**

# "Combining the couponing and payment apps to precisely target profitable offers."

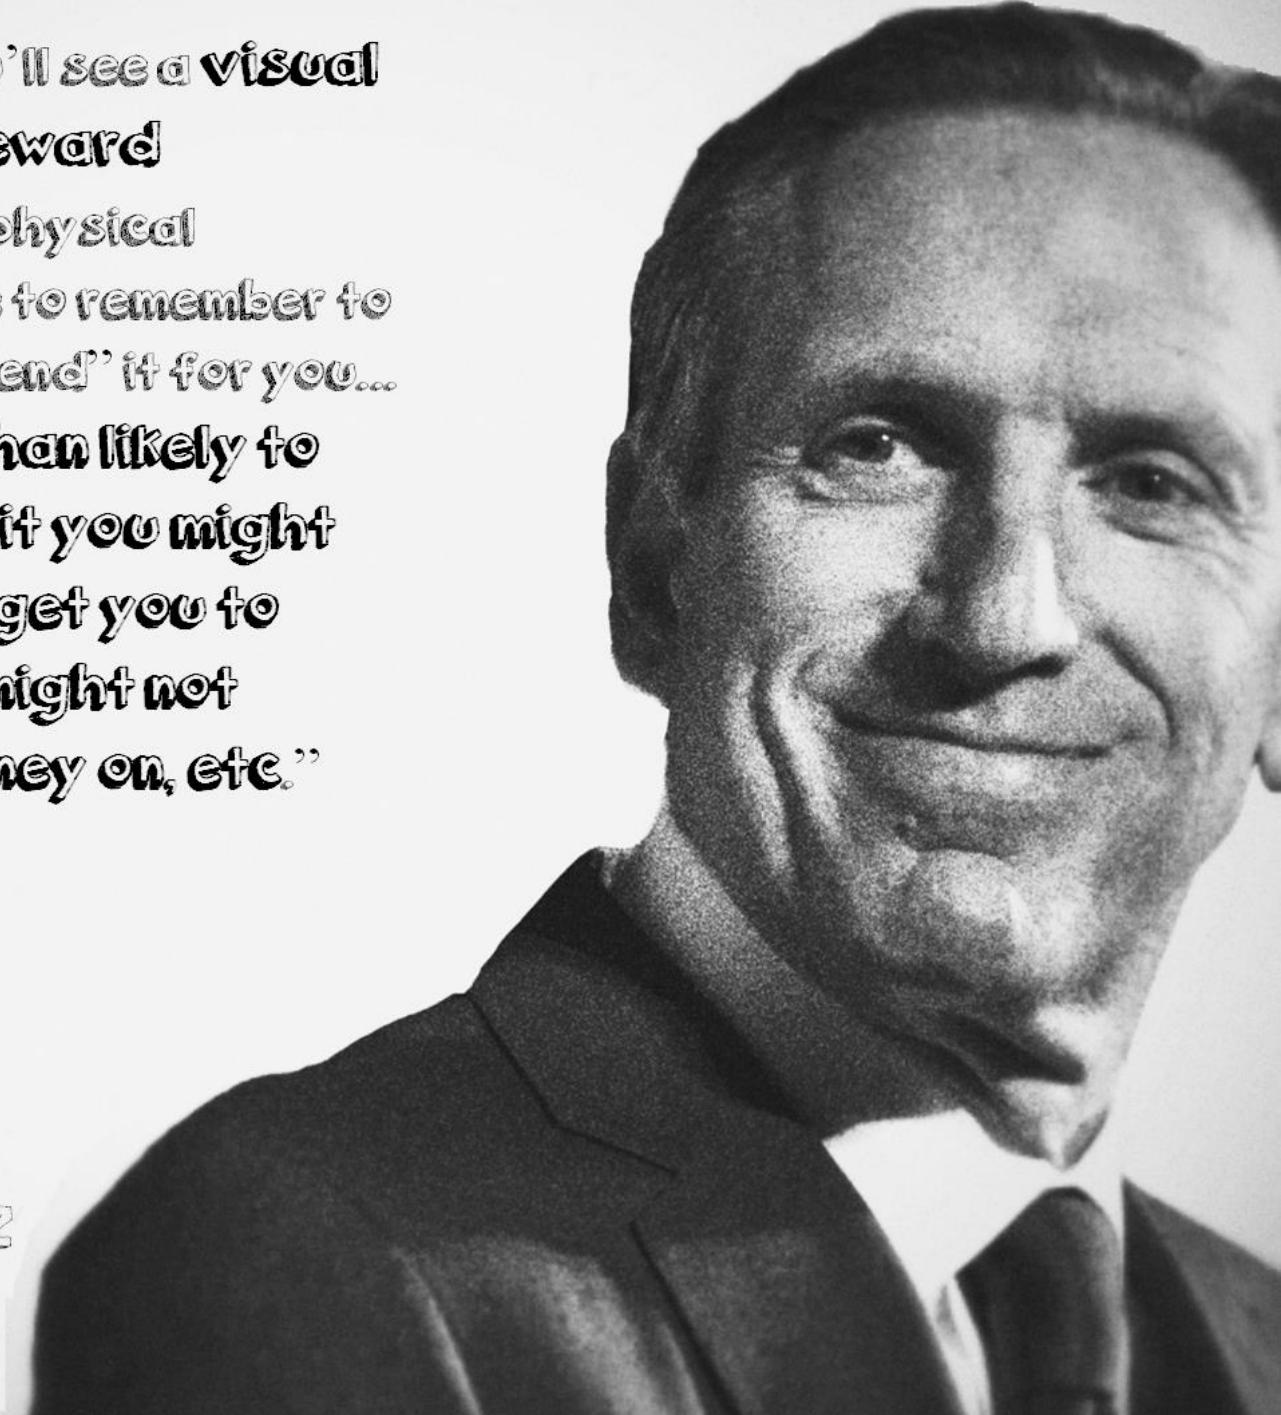

Don Thompson  
McDonald's, CEO

„On the mobile app, you'll see a visual indication there's a reward available; if you're a physical cardholder, you'll have to remember to ask your barista to “spend” it for you... That freebie is more than likely to bring you in for a visit you might not otherwise make, get you to order a pastry you might not otherwise spend money on, etc.”

Forbes  
October 2012

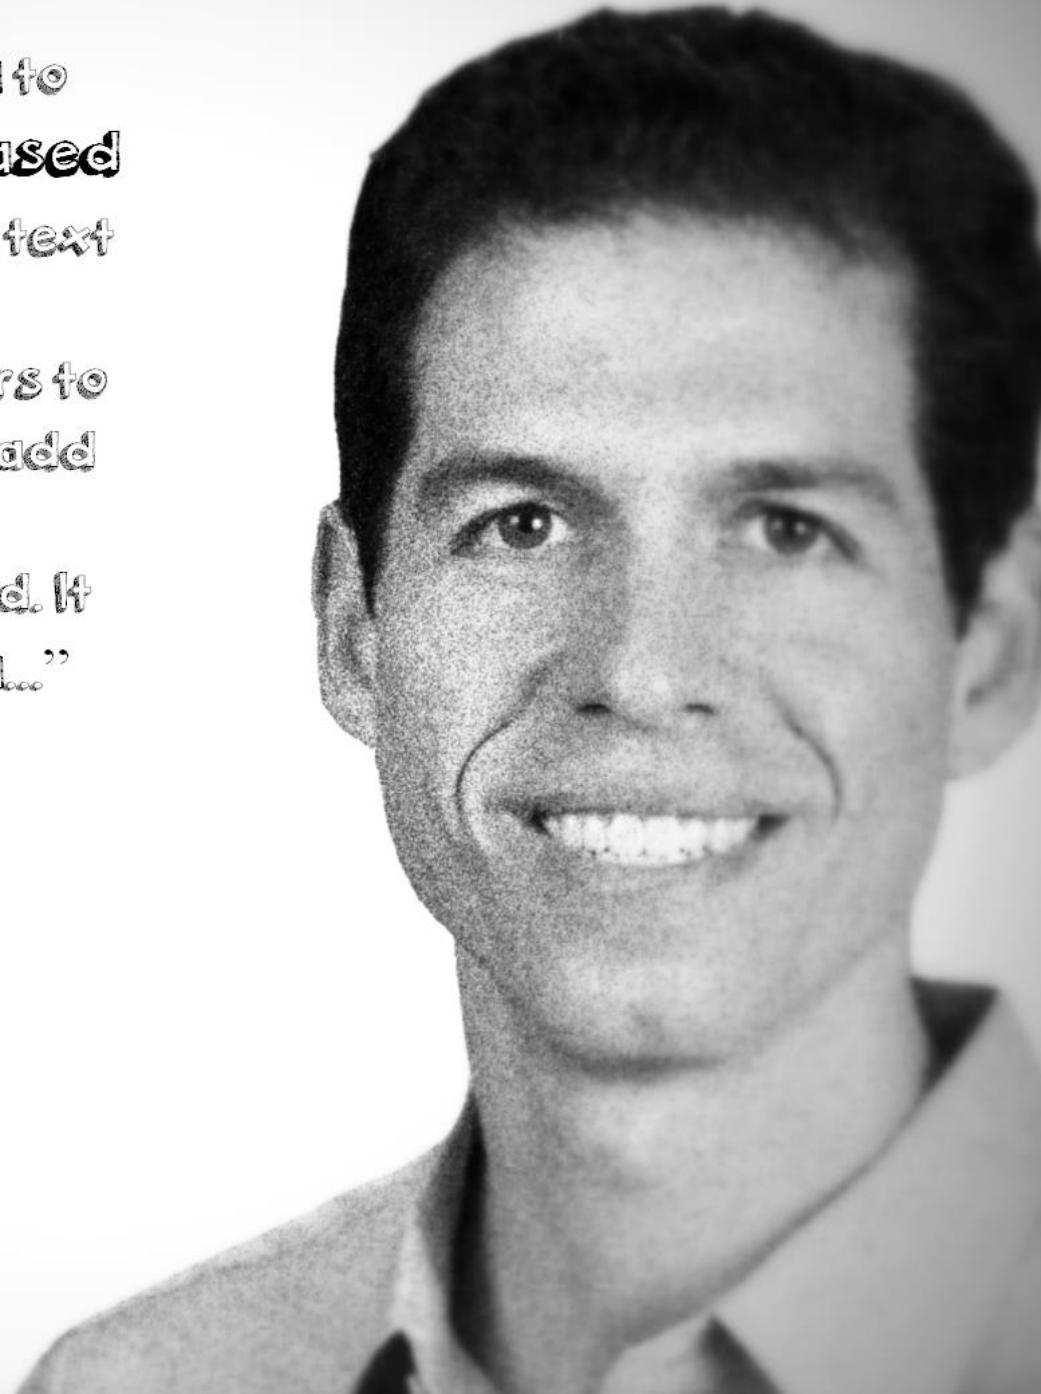

Howard Schultz  
Starbucks, CEO

**„BK will use the purchase data to deliver customers coupons based on their preferences through text messaging, email and digital “badges,” that prompt customers to open the app. Eventually, BK will add a loyalty feature that rewards regular customers with free food. It will also use preference data...”**

The Wall Street Journal  
March 2014

**Daniel S. Schwartz  
Burger King, CEO**

„McDonald's also stands to benefit from the transaction data the McD Ordering app collects. Combining the couponing and payment apps would allow the company to see everything customers purchase when they redeem a digital coupon, data that over time would allow McDonald's to precisely target profitable offers.”

Business Insider  
June 2014

Don Thompson  
McDonald's, CEO

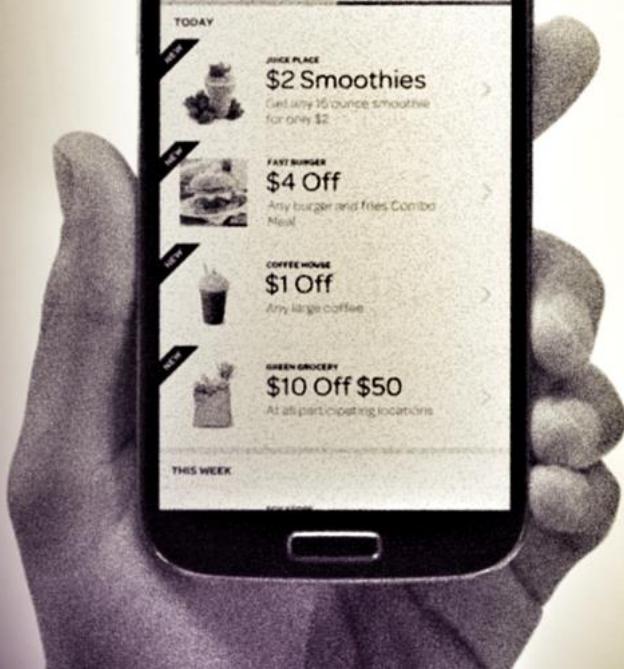

**"Without a mobile loyalty platform embedded into the mobile payment, mobile wallets offer few benefits over a plastic card payment."**

Michelle Evans  
Euromonitor  
March 2014

# Mobile Network Operators:

Cooperate each other  
is the key to success.

WEVE

mobiltárca

**Set up as a joint venture by EE, O2 and Vodafone, formed to offer massive reach with our core services - mobile messaging, display advertising, loyalty programmes and transactions.**

**Our business is underpinned by intelligent data insights that allow brands to target the right people, at the right time, in the right place.**

October 2012

of the Payment Council**

# LET'S SEE WHO CAN TARGET VERY WELL?

# IT'S A GREAT TIME TO SAY: WE HAVE TO COOPERATE!

# KEY QUESTIONS:

- 1. DO WE REALLY NEED BIG BROTHER?**
- 2. WHY DO WE THINK OF TRADITIONAL WAYS?**
- 3. SINGLE APP OR MULTIPLE PLATFORM?**
- 4. COLLABORATION IN WHAT PURPOSE?**
- 5. HOW CAN WE MAKE MONEY FROM BIG DATA?**
- 6. WHO WILL WIN THE BATTLE?**

# What do you want?
